contact with the skin to protect and provide comfort to the area. A topical anesthetic may be available from your provider to improve your treatment experience.

## ARE THERE ANY SIDE EFFECTS? WHAT ABOUT DOWNTIME?

Redness and/or swelling can be expected following treatment and will resolve within a few days. Treated brown spots will darken and slough off within 3 to 6 days. For full face treatments, swelling will peak 24 to 48 hours post treatment and usually resolves within a few days. Typically, you can wear make-up and return to normal activities immediately. Your provider may recommend a topical steroid to reduce swelling as needed.
